The Lands We Protect

The **Ridges Sanctuary**, Wisconsin's first land trust, was founded in 1937 to conserve the original 40-acre parcel. Today it protects 1,700 acres of one of the most biologically diverse ecosystems in the state. Our conservation and stewardship work is an integral part of the character of our community. Our campus comprises six very distinct areas: **Hidden Brook, the Baileys Harbor Range Lights, the Sanctuary, the Family Discovery Trail, Logan Creek and Appel's Bluff**. It conserves critical wildlife habitat and diverse ecosystems, protects natural landmarks and scenic landscapes and facilitates important research initiatives essential to the future of the Sanctuary and Door County. Perhaps most importantly, it provides environmental education opportunities to explore and connect with the natural world and inspires a legacy of conservation for our children and grandchildren to inherit and enjoy.

DIRECTIONS: Head north on Hwy 57 for 0.5 miles and turn east (right) on Cty Q. Travel 0.8 miles and turn west (left) at 8523 Cty Q and continue on 50 feet to parking lot on the left.

(Open May-Oct.)
